

I listen to my XM satellite radio mostly in my car. I often drive to Orlando and that is one of the cities for which I can get the weather and traffice information. As I plan to do some other drviig, I hope to make further use of these services.

I urge the FCC to the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I want and deserve.

Thank you kindly.
